

golf

in the Region of Valencia

When I was just three years old, I started playing golf in Borriol, Castellón, and during the last twenty years I have had the chance to enjoy this sport on practically all the courses of the Region of Valencia. I have been able to personally check the quality of them all and therefore I am confident to present a guide that will allow you to get acquainted with the charms of these courses. All of them, from the smallest to the biggest one, have quality enough to enable any amateur or professional golfer to learn and enjoy playing here.

There is no better place than the Region of Valencia to savour all the possibilities offered by golf. The climate is unique. 365 days a year, you will be able to combine your time on the green with delightful tourist activities.

Wishing your stay will be a most gratifying one, I send you my best regards.

A handwritten signature in black ink that reads "Sergio Garcia". The signature is stylized with a long, sweeping underline.

Sergio Garcia

More than 600 kilometers of coastline along the Mediterranean Sea is the best attraction of the Region of Valencia. There are twenty-two golf courses surrounded by stunning scenery enhancing the enjoyment of playing golf and making it one of the best locations for practising this sport in Europe.

Region of Valencia

365 golfing days

The Region of Valencia with its proximity to the sea and its beautiful landscape in the hinterland is an ideal place for golf. It offers golf courses created by well known designers commanding a distinct reputation in the international circuit. This makes this region very special and a wonderful tourist attraction for those who are fond of golf.

Sheltered by the Mediterranean climate which assures 365 sunny golfing days a year, the Region of Valencia boasts pleasant resorts, accommodation and enjoyment for those who wish to use their time near the green and for those who choose to discover the charms of the region.

Costa Blanca, Benidorm, Valencia Terra i Mar, and Castellón Costa Azahar are endowed with a wide range of particular features that can satisfy the needs of all our visitors. The Region of Valencia has 23,255 km² of beautiful sandy or gravel beaches and hidden coves, many of which are Blue Flag, together with spectacular mountainous scenery in its hinterland and natural parks, making a visit to this region special.

Experience a combination of tradition and innovation through its rich Mediterranean gastronomy, culture and history reflected in its villages and cities and festivities enjoyed by all during fiestas. The theme park in Benidorm Terra Mítica, the City of Arts and Sciences in Valencia and Castellón Cultural Programme have all helped to place the Region of Valencia as an important area to visit in the 21st century.
